Dear Friends,

We are delighted to share our latest Covenant Health Foundation Annual Report with you, our friends and supporters. This report highlights our activities and accomplishments for the 2012 fiscal year (July 1, 2011-June 30, 2012). These 12 months have been a period of growth and transition. We changed our name to Covenant Health Foundation, re-emphasizing our commitment to overall health. Sharon Prather, the Foundation’s President and acting Director for several years, moved into another important role with Covenant Health as I came on board as the new Executive Director of Covenant Foundation. On behalf of the Foundation’s many friends and supporters as well as our staff, we extend our heartfelt appreciation to Sharon for her leadership to the Foundation. Throughout this year, our supporters have embraced these and other new opportunities with great enthusiasm and continued dedication to further our mission of ministry to the whole person - body, mind and spirit.

Again this fiscal year, Covenant demonstrated strong financial performance and outstanding patient satisfaction results. Achieving these goals takes the combined commitment of our entire team of physicians, nurses, technicians and other medical staff as well as administrative support staff and our executive leadership. Within these pages, you will see how their devotion to Christian ministry, clinical excellence and healthy communities has changed lives. The success of our mission also depends on the generosity of our loyal donors and supporters. Through your gifts of time, talent and resources, we exceeded our goal for fiscal year 2012, raising over $3.6 million to benefit programs and provide state-of-the-art equipment for the patients and families we serve!

Among our major achievements this year are supporting a new mobile mammography unit to serve women across our region, celebrating a record-breaking employee giving campaign, growing our Samaritan Society and Physicians of Philanthropy programs, receiving new grants for renovation of a cardiac cath lab and a Parent Boot Camp for new dads and moms. We also enjoyed success with our special events to benefit many worthy projects for Covenant Health.

We hope you enjoy the stories featured inside from our volunteers, board members and auxiliaries who share their hearts about why they help us raise awareness and support to care for our patients. Every day in so many ways you, our supporters, are making a positive difference in the lives of these families. May you be richly blessed just as your kindness and compassionate contributions have blessed others in ways you will never know. To all of you who are extensions of our ministry, we offer our deepest gratitude.

Blessings,

Mikell Bollinger, Executive Director
Covenant Health Foundation
HISTORY:
Covenant Health was founded in 1998 with the merger of two of Lubbock’s most respected health care facilities, St. Mary of the Plains Hospital and Lubbock Methodist Hospital System. In 2012, Covenant Health System became Covenant Health – a new identity that embraces our new networks of care, which focus not just on hospitals, but on the overall health of the communities we serve. Covenant Health, a member of St. Joseph Health, is the largest provider of medical services for the West Texas and Eastern New Mexico regions, serving 62 counties with a total population of over 1.2 million people.

MISSION STATEMENT:
To extend Christian ministry by caring for the whole person—body, mind, and spirit—and by working with others to improve health and quality of life in our communities.

3&3 INITIATIVE
The “3-in-3” campaign, kicked off in 2012, refers to our three year direction and three primary goals that we will accomplish between now and 2015:
• Christian Service: We will create sacred encounters through compassion, caring, dignity and connection.
• Clinical Excellence: Covenant will be recognized as a leader in clinical quality and culture of safety.
• Healthy Communities: We will improve the health of people through wellness and disease management.

FOUNDATION STAFF:
Mikell Bollinger
Trevor Cates

Finding a New Rhythm

The single most traumatic event in my life was dealing with heart failure and living with consequences of that event. Ignoring two years of symptoms and doing some very erroneous self diagnosis, on July 2, 2010 it all caught up with me. Fortunately, I was treated at Covenant Hospital and have realized a miraculous recovery.

My treatment actually started when I was picked up and cared for by EMS and taken to Covenant with life threatening heart failure. After a morning of work to prepare for the 4th on Broadway music production, again ignoring the fact that I was sick, I succumbed to the symptoms. When arriving at the emergency room, an incredible team of doctors and nurses began work to save my life. They were passionate in their approach to treat me and showed the greatest compassion and caring imaginable.

It was determined that open heart surgery was a necessity. I was operated on by Dr. Bill Springer and admitted to South 8 and began the journey to recovery. There was never a moment that I doubted the professionalism and ability of that incredible team of caregivers. As a matter of fact, in that period of time I developed several friendships of a lifetime.

Halfway through my stay, due to major clotting in the bypasses, it was determined that the only way to save my life was to undergo the emergency placement of stents in the bypasses. I was treated in the cath lab by my cardiologist, Dr. Juan Kurdi. Due to my low blood pressure, I had to do so without anesthesia. His unbridled determination to clear the blockage without a doubt saved my life. Words can’t express my appreciation to Dr. Kurdi and the entire Covenant Hospital team. Thanks to the grace of God and Covenant’s wonderful care, my family and I have been immeasurably blessed through this ordeal.

Don Caldwell, Owner/Founder Cactus Theater
Covenant Cares Sets New Records with 2012 Campaign

Covenant Cares is the Covenant Health Employee Campaign that supports needed equipment and projects within the health system. Started in 2005, Covenant Cares provides equipment and programs throughout our health system based on requests submitted by employees. An anonymous board of eight randomly selected employees makes the funding distribution decisions each quarter.

Covenant Cares is employee funded....employee administered....and employee distributed. It changes lives throughout Covenant Health by funding needed equipment and programs. Employees donate one hour of pay per month for 12 months to make this happen! As one employee stated, “It is a wonderful feeling to contribute to so many worthwhile projects.” Covenant employees have given over $4 million in personal financial support to Covenant Health since the program began.

The 2012 Campaign, held October 3 - November 15, 2011, was a record breaking year in both donations and participation. The campaign goal was $640,000, and was managed by over 120 Covenant Cares Ambassadors. This goal was exceeded with a total amount raised of $717,848 by the end of December 2011. This was a 9% increase in contributions over last year’s campaign and is the largest amount ever raised in the Covenant Cares Campaign! In addition, employee participation in Covenant Cares increased by over 5%, for total participation of 57%.

Included in the money raised was a significant donation of $18,763 from St. Joseph Health employees. These employees, who are local to Lubbock but are employed by our St. Joseph Health system office based in California, conduct their own employee campaign each spring and have the option of choosing any ministry they wish to support. Since there are several St. Joseph employees who work at Covenant, Covenant Cares gives them the opportunity to support their ‘home’ ministry and they do it with great generosity!

It would be difficult to find an area of Covenant Health that is not touched by Covenant Cares and its legacy of generosity and support. For example, the Covenant Behavioral Health Unit received a television, DVD player and DVD’s that help provide daily education on alcoholism to patients and families. According to the Clinical Coordinator for Chemical Dependency Services at Covenant, the equipment made it possible for him to add to their services. Additionally, the Joe Arrington Cancer Research and Treatment Center Pharmacy received ambulatory pumps that are used daily to provide chemotherapy to patients who must receive extended treatments at home. These are just two examples of the impact employees have made through Covenant Cares. We salute all of our employee campaign contributors for giving from their hearts!
Successful Grantseeking Means Success for Patients at Covenant Health

The Covenant Health Foundation received over $638,000 in grant funding and commitments in Fiscal Year 2012. With the help of local, regional and state funding agencies, Covenant Health was able to provide funding toward numerous important initiatives, including a radiant warmer for the Neonatal Intensive Care Unit, the Community Health Outreach Dental Clinic, car seats for families in need, and materials for handmade blankets for our neuroscience patients, among other initiatives. Our regional hospitals also received grant funds that helped them provide equipment and services to their patients.

Grant funding helped patients and community members throughout the year. According to the Manager of the Covenant Community Services Denture Program, which received $2,000 to help patients receive dentures, “the patients are so thankful for the services they receive and the funding just made them even more appreciative.”

Other grant projects include:
The CH Foundation approved a $406,578 grant toward the purchase of new equipment for one of the hospital’s cardiac catheterization labs. The catheterization equipment will benefit approximately 830 patients annually and provide improved technology to patients seen at the catheterization lab, including better image quality and lower radiation dosages.

The Lubbock Area Affiliate of the Susan G. Komen for the Cure approved two grants for breast cancer programs within the health system. The Joe Arrington Cancer Research and Treatment Center’s (JACC) Chorus of Angels program received $19,918 to provide assistance to breast cancer patients through lodging, transportation, and medication resources. This grant will be used to alleviate barriers to treatment and give low-income patients the opportunity to continue and complete needed cancer treatment at JACC. According to the Supervisor of Patient and Community Services at JACC, “Most of our patients will tell you that there are few, if any, resources for needs like fuel, medications, or other expenses that can place a huge financial strain on them. It is support like this that helps provide hope to our patients and a sense that we care about all aspects of their lives. This program in many instances minimizes or eliminates some of the barriers that place a financial or emotional strain on them. It is a prime example of what patient-centered care is all about, providing support for every aspect of our patient’s lives.” The Arrington Comprehensive Breast Center’s mobile mammography program received $44,907 to provide screening and diagnostic mammograms, ultrasounds, and biopsies to underfunded and unfunded patients through the mobile mammography bus or at JACC.

The Kohl’s Cares Hospital Partnership Program approved a $28,925 grant to provide monthly Boot Camp workshops to new parents. Boot Camp prepares men and women to be parents in all respects, including holding and comforting a baby, burping, changing, swaddling, handling a crying baby, bonding, and forming a parenting team, among other issues.

The William M. Weaver Foundation approved a $25,000 grant to provide funding support to help purchase a mobile mammography unit for the Arrington Comprehensive Breast Center. The new unit, which will include the additional purchase of a digital mammography system, will allow the mobile mammography program to provide state-of-the-art preventative mammography screenings and health education to patients served through the mobile mammography program in Lubbock and the region.
SPECIAL EVENTS

Covenant Foundation Gala

When: September 30, 2011
Chairs: Ann & John Zwiacher
Raised: $222,551
Proceeds: Enhancement, renovation, and improvement of the patient care facilities at Covenant Medical Center and Covenant Women’s and Children’s Hospital

Light Up a Life

When: December 3, 2011
Chair: Becky Garza
Raised: $53,473
Proceeds: Support for Hospice of Lubbock’s community outreach mission of providing quality and compassionate end-of-life care and bereavement services for terminally ill children, adults and their families regardless of their ability to pay
23rd Annual Mayors’ Beans and Cornbread Luncheon

When: March 2, 2012
Raised: $58,614
Proceeds: Direct Patient Care at Hospice of Lubbock

Heart 2 Heart / DeBakey Lectureship

When: March 29, 2012
Chairs: Dr. & Mrs. James Moss
Raised: $90,275
Proceeds: Upgrade for a new state-of-the-art cardiac catheterization laboratory
SPECIAL EVENTS

STORYTELLERS
When: June 23rd, 2012
Chairs: Melissa and Eric Pierce
Raised: $111,692
Proceeds: Retina Camera for infants and children treated at Covenant Children’s Hospital

JOE ARRINGTON CANCER CENTER GOLF TOURNAMENT
When: April 30th, 2012
Chair: Gregory Turner
Raised: $129,640
Proceeds: A new Mobile Mammography Unit, making Covenant Health the only facility with a Mobile Mammography Program in the region
HOSPICE EVENTS RAISE SUPPORT FOR PATIENT CARE SERVICES

Hospice of Lubbock is the region’s only hospice dedicated to both pediatric and adult care and has served a 19-county West Texas region since 1987. Hospice of Lubbock is also the only non-profit hospice in the area and is a wholly-owned subsidiary of Covenant Health. Hospice of Lubbock (HOL) offers care designed to meet the physical, emotional, and spiritual needs of terminally ill patients and their families. This year marks Hospice of Lubbock’s official 25th anniversary of service.

Hospice of Lubbock has served approximately 8,500 patients and their families since admitting its first patient in 1987. Hospice of Lubbock served 435 patients in FY2012 (July 1, 2011 to June 30, 2012). Patients and their families are truly impacted by Hospice of Lubbock. “I believe I was guided to this special place, Hospice of Lubbock, and I am so grateful. I truly consider them angels on earth”, states a patient’s family member. Not only patients and families feel the impact of Hospice, employees do as well. Marisa Ochoa, a Registered Nurse at Hospice of Lubbock, says, “There is nothing that compares to being a hospice nurse. I am so blessed to be one.”

Hospice of Lubbock had its Annual Mayors’ Beans and Cornbread Luncheon in March and raised over $58,000, with all proceeds going directly towards patient care. The Mayor of the City of Lubbock, along with Mayors from communities in the surrounding region, was in attendance at the event. A variety of artists from the Cactus Theatre provided entertainment. Several community leaders and radio and television personalities helped wait tables and collect tips, all for the benefit of Hospice of Lubbock.

Hospice of Lubbock also held its Light Up A Life campaign in November and December of 2011. Light Up A Life offers donors the opportunity to remember, honor or celebrate the lives and events of loved ones. Light Up A Life raised over $53,000 in 2012.

Hospice of Lubbock would like to thank all of the individuals and organizations in our communities for your generous support this year, with special appreciation to Betenbough Homes for their significant donation to the Children’s Grief Counseling Ministry in 2012 through their support of the Mayors’ Beans and Cornbread Luncheon and Light Up A Life.
The Covenant Health Foundation values and recognizes support from all of our donors. Our Samaritan Society members represent a select group of friends and supporters whose commitment and steadfast philanthropy have truly strengthened healthcare in our community. Leadership through giving continues to be a generous expression of confidence in CovenantHealth’s tradition of Christian service, clinical excellence, and ensuring healthy communities.

In its various forms, skilled and compassionate care has distinguished CovenantHealth and its service to the residents of the Texas South Plains for nearly 100 years. Your contributions to our organization represent much more than a charitable donation – they are a meaningful investment in the lifesaving services our community needs now and in the years ahead.

Many friends of CovenantHealth wish to support the organization’s commitment to the health and healing of our neighbors throughout West Texas and eastern New Mexico. Their loyalty, compassion, and passion for our mission to create the healthiest communities inspires them to give regularly to support our programs and services. In doing so, they become part of the Covenant family, building a spirit of giving that is the foundation for our continued ability to provide the best medical care available.

In the fall of 2009, we proudly introduced the Samaritan Society. Establishing this exclusive Society provides an opportunity for us to recognize individual and organizational leaders in our community whose especially generous annual gifts are $1,000 or greater.

In 2011, we expanded our recognition opportunities by creating a special giving category just for our medical staff. The Physicians of Philanthropy are those physicians who give back to CovenantHealth through the annual employee giving campaign or a direct donation. We are truly blessed with physician partners who contribute to our success!

The benefits of joining the Samaritan Society include:

- Samaritan Society Membership Card
- Complimentary valet parking at Covenant Medical Center
- Complimentary self-parking in all hospital garages
- Invitation to an exclusive Annual Recognition Luncheon
- Invitation to Foundation special events
- Recognition in the Foundation Annual Report
- Prominent recognition within hospital facilities (on donor recognition displays proposed for the future)

New for 2013, Samaritan Society members will also be invited to attend exclusive Leadership Lectures with speakers drawn from hospital and medical staff leadership, as well as a Personal Financial Planning series being developed in collaboration with professors from Texas Tech University. Plans for program enhancement continue to evolve.
Legacy Society

The Legacy Society honors friends of the hospital who have arranged for future philanthropic support by making a planned gift through their will or estate plans.

He’s Got Heart

Wes Everett made it to adulthood not thinking too much about his heart health, despite the fact that there was a strong family history of heart disease. In 2005, at the age of 30, Wes was overweight, out of shape, had borderline high blood pressure, and was already on a cholesterol-lowering medication. He was well on his way to following in the footsteps of his father and grandfather, each of whom began experiencing heart problems in their early 30s. There was never a time in Wes’s life when his father’s health was not a concern for their family.

With the birth of his first child, Wes realized that he wanted a different life experience for his own family. He never wanted his wife, Susan, or his daughters to have to worry about his heart health. He vowed then and there to fight for good health – to get in shape, to be mindful of how his body was feeling and functioning, and to take good care of himself.

His commitment to this mission was solidified in 2009 when his father tragically passed away, on Wes’s birthday, at the relatively young age of 63. Wes feels certain that his father’s heart disease played a role in his untimely death, a loss that left him feeling cheated – cheated out of the time he wanted to spend with his father, cheated out of the opportunity to share his children with their grandfather. He vowed then and there that his father would be the last Everett man who went down to heart disease without a fight.

Today, Wes is an accomplished triathlete, fit and healthy and an example for all those around him, especially his family. He speaks frequently in the community, inspiring others to fight for their own good health. His wife, Susan, says that for their girls, Wes’s healthy lifestyle is the only one they’ve ever known – and one that the whole family embraces.

In 2010, Wes had the opportunity to turn his triathlon participation into a fundraiser to support Covenant Health, securing more than $25,000 for the renovation of Covenant’s Cardiac Cath Lab Waiting Room in memory of his father, J.D. Everett. When the project comes to fruition later this year, Wes will have the satisfaction of knowing that other families dealing with heart disease can take comfort in the renewed waiting area – and perhaps be inspired by the Everett story to take up the fight for good health.

Wes Everett – husband, father, son, dedicated Covenant volunteer, successful triathlete - an inspiring champion for heart health on the South Plains!
Covenant Hospital Levelland and its clinics offer exceptional healthcare to Hockley County and surrounding communities through 24-hour emergency care, outpatient surgery, maternity services, physical therapy, and imaging services. Covenant Hospital Levelland is a licensed, 48-bed facility. The Levelland Foundation office supports the hospital and raised $191,253 in FY2012 for the hospital through events, activities, and donations.

Covenant Foundation Levelland held two perfume sales for employees, which generated $5,000 in proceeds for the Foundation. The proceeds benefitted new medical equipment for the hospital.

Covenant Foundation Levelland also held their 11th Annual Gala, “An Evening at the Kentucky Derby”. Over 500 guests attended and helped raise over $87,000. An extremely successful live and silent auction at the event generated $36,200 in revenue! Gala proceeds helped purchase an Alter G Gravity Treadmill and Colonoscopy Scopes.

Covenant Foundation Levelland also received grants benefitting the hospital. The Texas Department of Rural Affairs provided $50,000 for a Capital Improvement Loan grant that paid for a Surgical C-Arm for the Surgery Department. The hospital also received a Small Hospital Improvement Program (SHIP) grant for $8,386 that provided funding for employee training costs.

The 2nd Annual Covenant Cares Employee Campaign for Covenant Hospital Levelland also took place in FY2012 and was a great success, with 58% of employees contributing to the campaign. Their strong commitment to supporting the hospital is expected to yield $24,000. Covenant Cares is the Employee Campaign that supports needed equipment and projects within the hospital.
Covenant Foundation Plainview Sees Success with Golf, Glam and Gift Matching

Covenant Hospital Plainview is a licensed, 100-bed facility staffed by over 300 employees and medical professionals whose mission is to give our patients the best possible care at each and every visit. Covenant Hospital Plainview provides medical services including diabetes education, emergency services, gastroenterology, laboratory services, and radiology services. Covenant Foundation Plainview raised more than $200,000 for the hospital in FY2012 through events, activities, and donations.

This past year was a wonderful year for Covenant Foundation Plainview in large measure due to the overwhelming support of employees and donors. The Foundation conducted a fragrance sale in December and doubled their goal by selling almost $20,000 with proceeds benefitting hospital projects. The Foundation also held a Jean Day, where employees pay to wear jeans on Fridays. Proceeds of more than $2,000 will go towards a Pediatric room at the hospital.

The Covenant Hospital Plainview Golf Tournament raised $20,640 in funds to be used for the hospital’s Hk2020 program and Diabetes Education program. Hk2020 is a free program offered for the community to assist in educating kids to make healthy decisions for mind, body and spirit. Additionally, Hk2020 received $5,000 from the Plainview Walmart Distribution Center after partnering with them in the Hale County health fair held in September.

The 2012 Premier Oscar Night Extravaganza Gala proved to be not only a great fundraiser, raising $47,650, but a magnificent night of glamour mixed with a twist on an Oscar awards ceremony. Almost 100% of the medical staff were in attendance and played a major role in the evening’s entertainment. The Plainview Foundation also had a successful Covenant Cares Employee Campaign this year, raising more than $42,000. The Hospital Authority Board matched this amount, which will allow the hospital to leverage the employee gifts for the benefit of the hospital and patients. Covenant Cares is an employee-driven campaign that supports needed equipment and projects within the hospital. Approximately 82% of the employees at Covenant Hospital Plainview donate one hour of their pay each month to participate in the campaign.
FOUNDATION’S JOURNEY TOWARD A NEW MOBILE UNIT

They say that a journey of a thousand miles begins with a single step. The Covenant Health Foundation embarked on a journey in 2011 – a journey to fund a new mobile mammography unit and digital imaging equipment for the Arrington Comprehensive Breast Center’s Mobile Mammography Program. At the end of Fiscal Year 2012, this journey was almost complete, with 70% of funds needed for the unit and equipment raised from donors, foundations, and businesses.

Covenant Health is the only facility in this region with a mobile mammography program that reaches out to a 125-mile radius of Lubbock and provides mammography screenings in rural and underserved communities. Most importantly, these services are offered to all who need them regardless of their ability to pay. The new unit, which will include a digital mammography system, will allow the mobile mammography program to continue to provide state-of-the-art preventative mammography screenings and health education to patients served through the mobile mammography program in Lubbock and the region.

As of June 2012, the Covenant Health Foundation had raised $485,715 toward the mobile mammography unit and equipment’s total cost of $690,835, thanks in large part to Foundation supporters and donors. Included in this amount was a $200,000 combined donation from the hospital auxiliaries, along with grant funding, gifts from individuals and businesses, a direct mail campaign, and a $50,000 donation from the Covenant Health Employee Campaign.

The overwhelming support from donors will make it possible for Covenant Health to continue making a difference in the lives of our friends and neighbors. The program has already impacted numerous patients over the years, serving 1,457 women and traveling 18,260 miles in FY2012.

Why is this program important? It’s important for patients like Angie*, who had her breast cancer detected as a result of services provided by the unit. In fact, she feels that if it wasn’t for the mobile unit and the health fair she attended she wouldn’t have found out she had cancer. The services provided on the mobile unit were something she could afford to do, especially as a person without health insurance.

As noted by Angie’s* story, without Covenant’s mobile mammography program, hundreds of women would potentially go unscreened. The Covenant Foundation anticipates fully funding the new unit by December 2012.

*not her real name

One single mammography screening can make a difference...
Covenant Auxiliaries Make a Difference in 2012

The Covenant Medical Center Auxiliary was formed in 1952 under the name “Methodist Hospital Auxiliary”. The Methodist Hospital Auxiliary helped form the St. Mary of the Plains Auxiliary in 1963. Since the merger of St. Mary of the Plains Hospital and Lubbock Methodist Hospital System in 1998, the auxiliaries are now referred to as the Medical Center Auxiliary and the Lakeside Auxiliary. Covenant Health’s two auxiliaries have been compassionately caring for our patients and families, providing years of dedicated service here on the South Plains.

In 2011, the auxiliaries worked a combined total of approximately 49,000 hours. This equates to over $588,000 in services in 2012. Auxiliary volunteers perform numerous important jobs throughout our facilities including: staffing all hospital waiting rooms and information desks; keeping coffee and supplies available to guests; delivering flowers, mail and free newspapers to our patients; and providing transportation for patients to or from a hospital room. Many of the dedicated auxiliary members began their volunteer service for Covenant Health after having a friend or family member in one of our hospitals.

This year, each auxiliary donated $100,000 toward the purchase of a new state-of-the-art mobile mammography unit for the Arrington Comprehensive Breast Center, for a combined gift of $200,000! According to the Lakeside Auxiliary President Lana Corcorran, “I hope that one day I might get to meet somebody that has really benefited by using the mobile mammography (unit), possibly saving their life. I feel that this service is so important and I am so proud not only that Covenant Health plays a huge role in bringing such an important service to our community, but that our volunteers were able to help by making this our project this year. I feel that the volunteer program is so important and am humbled to be a part of it.” Mary Stubbs, Auxiliary President at the Medical Center, says, “All of the funds from the Gift Shop go back to Covenant. That is simply what the Auxiliary is all about – giving back to the hospital. Contributing to the Mobile Mammography project is just an awesome thing to do. It gives us pleasure to help provide services to those who cannot access these services elsewhere. We are excited about seeing the new mobile unit! I have met people who have received their mammograms on the (current) bus and were so thankful for the service. That thrills me!”

Other programs funded by the auxiliaries in 2012 include scholarships to Covenant School of Nursing students and scholarships to Covenant employees who are furthering their education in nursing, radiology, or other areas of medical service delivery. The auxiliaries also supported purchase of a golf cart to transport patients and families from the Joe Arrington Cancer Research and Treatment Center’s parking lot to the Center’s front door.

In addition to the impact made by their financial support, volunteers make an impact on patients each day. One example is the “go to” couple that volunteers on the 4th floor of the Women’s and Children’s Hospital. They come in twice a week and quietly go about putting together packets for physicians’ offices, assembling admitting packets, and delivering newspapers to each patient on that wing. They, like so many others, enable the staff to do more than would be possible without them.

The volunteers state it best when describing their work. “The reason we are here is to meet, greet and try to help people.” Additionally, “it is a great social outlet for us and many great friendships have developed from getting to know each other here at Covenant.” We are deeply grateful to all the men and women of the Covenant Auxiliaries for their friendship and devotion to our patients and families!

LEGACY GIVING

Glenn Ray Green lived a simple life in rural East Texas. When he passed in August of 2011, he specified several bequests to people important to him, but he had no heirs, no one to receive the remainder of his estate. However, at some point in Mr. Green’s past, he or someone close to him had been touched by services provided by a children’s hospital. So, in a move of exceptional generosity, he left the bulk of his estate to be split equally among the seven children’s hospitals across the State of Texas, including Covenant Children’s Hospital. We received Mr. Green’s generous bequest this past May.

The Covenant Foundation works with individuals who are passionate about the future of quality healthcare in our communities. We are building a pool of future resources, ensuring that funding for important health and wellness initiatives will always be available when and where it is needed. A legacy gift to the Covenant Foundation honors what you value most today and communicates those values to future generations.

The Covenant Foundation’s Legacy Society was established in 2010 to recognize and honor donors who have expressed their desire to provide a bequest or other testamentary gifts to the Covenant Foundation through their will, trust, beneficiary designation, or other estate planning vehicle. These individuals recognize the role of charitable gifts in providing quality healthcare both today and for future generations. We invite you to join the Legacy Society today and encourage you to visit our planned giving website at www.chsfgift.org for more information regarding legacy giving.

LEAVE A LEGACY — MAKE A DIFFERENCE IN THE LIVES THAT FOLLOW

After taking care of your family and loved ones, you can make a difference in the lives of thousands of others by leaving a bequest—a donation in your will—to the Covenant Foundation. Your bequest, regardless of size, is a lasting and meaningful gift to future generations. In addition, a bequest is exceptionally easy to create. You simply insert a few sentences into your will, or create a codicil to a previously created will. This is the recommended language for a bequest to the Covenant Foundation:

“I give, devise, and bequeath to the Covenant Foundation, a non-profit corporation located in Lubbock, TX, the sum of $_______ (or ____ percent of my estate, or other tangible personal property described herein) for its general use and purposes.”

The Covenant Foundation always recommends that donors discuss any estate plan with their personal financial adviser.

The true meaning of life is to plant trees under whose shade you do not expect to sit. — Nelson Henderson
