OBJECTIVES
At the conclusion of this activity, participants will be able to:

- Examine the knowledge base of stroke, Parkinson’s
disease, adult and pediatric seizures and epilepsy and
acute and chronic headaches.
- Identify new developments in the diagnosis and
management of the above disorders.
- Recognize the ethical aspects of chronic and debilitating
conditions in the field of neurology.
- Be more competent and comfortable in managing the
above neurological conditions and know when to seek
consultation.
