Donor Profile
Brice Foster

Brice Foster is a fifth generation from Lazbuddie, Texas, a small town northwest of Lubbock. Brice attended San Angelo State University where he met his wife Kristin. After finishing undergraduate work, Brice completed his Masters in Personal Financial Planning at Texas Tech University.

Brice and Kristin’s journey with Covenant started when their oldest daughter, Emma Kate, was born at Covenant Children’s. Brice then got involved in the Covenant Children’s task force committee.

When asked what sets Covenant apart Brice is adamant about Covenant’s mission.

“Covenant’s mission of healing the whole person—body, mind and spirit—is what makes it unique,” Brice said. “Being a faith based organization makes Covenant special and I feel blessed to be a part of it.”

Brice and Kristin have four children, Emma Kate (9), Easton (8), Evan (4), and Eliot (2). He enjoys coaching his children, yard work and watching movies. Brice also serves on our Covenant Health Foundation Board.

Covenant Medical Center Ranked Best in Region

We’re proud to share that Covenant Medical Center was recently recognized by U.S. News and World Report as the #12 Best Hospital in Texas! CMC was also rated high in 5 adult procedures/conditions: Aortic Valve Surgery, Colon Cancer Surgery, Heart Bypass Surgery, Heart Failure and Knee Replacement.

Ruth Simmons 50 Years of Volunteering

Longtime Hospital Auxiliary member Ruth Simmons displays an old Pink Lady’s uniform while wearing her more modern smock. She has volunteered at Covenant Health Plainview for almost 50 years.

#WhereTeddy

Teddy has traveled across the country throughout the month of September - bringing comfort and countless smiles to sick kids. You can follow Teddy’s journey on our Facebook page as he made his way around Covenant Children’s.

Covenant Health has provided a ministry of health care to the residents of the South Plains since 1918. We look forward to thanking you, our community of supporters, as we celebrate 100 years of health care on November 1.

Do you have an interesting item from Lubbock Sanitarium? Your grandmother’s nursing cap from the 1950s? An advertisement from Plains Hospital? We would be honored to be gifted or borrow your items. If you have items from the hospitals that have evolved into Covenant Health, please bring them.

Covenant Health Milestones

Physician Profile  

Dr. Sergio Lara

Dr. Sergio Lara is an Internal Medicine Specialist in Plainview, Texas. He graduated with honors in 1996 from Ignacio A. Santos School of Medicine in Monterrey, Mexico.

Dr. Lara was recruited to Plainview over 12 years ago by one of his previous professors. When asked what his favorite thing about Covenant Health is, he explains that the people of Covenant are most valuable to him.

“It’s important for the people within Covenant to make it a better place,” Dr. Lara said, “The participation from our employees is important and it’s also a measure of how engaged and satisfied people are with our organization.”

In Dr. Lara’s free time he enjoys spending time with his wife, Claudia, and two children, Andrea (16) and Sergio (12), he also enjoys mountain biking.

Foundation Volunteer

Jamar Jordan grew up in Lubbock and attended Wayland Baptist University, where he met his wife D’Lea. Jamar works for the Operational Service Quality department here at Covenant Health and has been active in St. Luke’s Methodist Church since he was born.

Jamar has volunteered his time with the Foundation on several different occasions. He understands the importance for Covenant employees to give back to the organization that gives so much to him.

“We have to give back,” Jamar said, “Not only do we need to give back during our work time while we are being paid. we have to follow the example of Jesus and volunteer our free time.”

Jamar, D’Lea and their growing family of five children enjoy playing games and giving back to their church and community.

Covenant depends on employee volunteers like Jamar to lend a helping hand when our ministry is in most need, which makes it possible for Covenant Health to grow our organization.
Project Update

Temporary Entry Infill - light fixture installation is complete in the Heart & Vascular Institute Lobby and Concourse with acoustical ceiling tile and metal panel ceiling installations near completion.

Servery & Kitchen - casework and equipment installations are ongoing with completion expected in October.

Joe Arrington Cancer Research & Treatment Center - Demolition in the Central Courtyard is complete.

Plainview Surgery Expansion - Construction and final inspections are now complete in the Pre-Op area.
Covenant Health Gala

September 23, 2017

The 19th annual gala was held on September 23, 2017 at the Overton Hotel and Conference Center. Guests to the seated dinner were entertained by The Jam Wows! Band from Dallas. Chairs for the event were Dr. James and Marci Gutheil, and the theme was Masquerade Ball.

The gala raised over $190,000 and will be used for a new biplane digital angiography unit. This technically-advanced scope is designed to obtain still and video images of the head, neck, and spine with directional imaging. In utilizing leading-edge technologies such as the biplane unit, we can continue to meet the current and future needs of our patients by minimizing or preventing brain injury related to stroke, aneurysm, vascular malformation, tumor or trauma.

Thank you to all of those who participated. If you would like to participate in the Centennial Ball next year please contact Heather McVay at heather.mcvay@stjoe.org or 725-6020.

Charity Golf Tournament at 4ORE! Golf

On August 21st, Covenant Health Foundation held a Charity Golf Tournament at 4ORE! Golf. Thank you to all of our golf tournament sponsors and participants for helping us raise over $40,000 to help fund the new transportation shuttle for JACC patients.

Through the generosity of the Alderson Dealerships, JACC had the opportunity to purchase an 11-person vehicle to transport patients in need. This vehicle will offer local transportation to and from JACC for those patients with no other transportation.

The 4th Annual House Concert will be held on October 12 at the home of Carol Calhoon.

Cocktails and Dinner will begin at 6:00 p.m. with a performance from Ian Moore at 7:00 p.m.

This year’s proceeds will benefit Covenant Children’s and help purchase ER Beds.

Limited sponsorships and tickets available. Contact Heather McVay at 725-6020 for more information.
