

Covenant Health is the most comprehensive health care network serving West Texas and Eastern New Mexico. It is our mission to extend Christian ministry by caring for the whole person—body, mind and spirit—and by working with others to improve health and quality of life in our communities. We strive for sacred encounters and excellent care in every patient interaction. Our interns are high achievers who help us reach our goals within the hospital, by providing a great deal of support to the staff and patients.

About Our Program

Covenant Health's Hospital Administration & Clinical Internship Program challenges our students to take the next step in their professional careers by submerging themselves within a hospital environment.

Although the program is listed for hospital administration and clinical experiences, students in **any** background are more than welcome to apply, however, should know that this is the main center of focus for the program. We always accept students from any medical field, as well as other fields, including, but not limited to, Business, Communications, Psychology, etc. as we try to place you within that field in the hospital setting. The program is split into two different parts, which are listed below:

Primarily, students will be given the opportunity to participate in a hospital administration or clinical program by pairing them alongside a clinical manager or hospital leader who will take them under their wing and offer great insight to students interested in the medical field. Students will learn to work independently, diligently, and analytically to accomplish tasks and projects in their designated unit. The day to day assignments differ based on the placement, however, may include (but not be limited to) -

- Clinical: rounding on patients, answering call lights, following-up with discharge phone calls, putting together admission packets, re-stocking a patients' room, organizing a storage closet, writing thank you notes, etc.
- Hospital Administration: collecting data on unit floors, keeping track of spreadsheets and other documents, assisting with meetings, etc.

Please note that the experience a student will receive depends on the unit or department that they are placed in. Once you interview for the program, a much more detailed explanation can be offered depending on your certain interests.

Program Requirements

We ask that each intern completes **a minimum** of 75 hours of service at the hospital during their internship's semester. Typically, this averages to two shifts a week, each at four hours, or three shifts a week, one at four hours, and two at two hours. Interns must be able to provide their class and work schedules at the beginning of the semester to prove that they will be able to meet this requirement. Students must currently be enrolled in an accredited college or university and live in Lubbock, TX for the semester of their choice. Students may also be participating in a gap year at school to participate in the program. Students of any college-year are accepted into the program. No previous experience is necessary to apply for the program.

Code of Ethics

Working as an intern is a generous act, but it is also a privilege, which entails certain responsibilities. While at the hospital, volunteers must adhere to the same Code of Ethics that is practiced by the professional staff.

- 1 An intern must represent the hospital while in uniform and should act in a manner commanding respect for himself/herself, the hospital and the medical staff.
- 2 All information regarding patients and their families is strictly confidential.
- 3 An intern will not use his association with the hospital to seek the free medical advice or favors for himself or others.
- 4 Should an intern observe anything that seems to be amiss in the hospital, he/she should direct any questions or opinions to Angela Haney at (806) 725-0094, or Lauren Orta at (806) 725-3309, not to patients, friends or associates.
- 5 An intern must make sure he/she understands instructions. If in doubt, he/she should ask for clarification before acting.
