If you’d like to help with the Keeping the Covenant campaign, please contact us at 866.4COVENANT. Learn more about the campaign at keepingthecovenant.org.
You likely have already seen visible evidence of our Keeping the Covenant construction project. Over the next several months you will see a number of major changes at Covenant Medical Center caused by those activities. While we’re excited to upgrade our facilities in order to provide the very best care environment, we understand the disruptive nature of these projects and ask that you pardon any inconvenience during our progress.
Here are some things you need to be aware of when you visit our location in coming months to help you get to Covenant Medical Center and the Covenant Heart & Vascular Institute with the least amount of inconvenience:

- **For patients and visitors who are able to walk** — Please park in the East Garage. Parking spaces for Covenant Heart & Vascular Institute and CMG Cardiology Associates patients have been designated on the third floor of the East Garage.

- **Heart Institute and CMG Cardiology Associates patients** — Walk from the 3rd floor of the East Garage parking area using the skybridge to the 3rd floor of the Covenant Heart & Vascular Institute. You can access CMG Cardiology Associates or the Heart Institute from the elevators in that area. A volunteer will be stationed in the 3rd floor Heart Institute lobby area to help you find your way.

- **Covenant Medical Center patients or visitors** — Walk from the 3rd floor of the East Garage over 21st Street using the skybridge. Continue past the Heart & Vascular Institute lobby and follow signage to the South Elevators. Take the elevator down to the first floor and you will emerge in the Main Lobby across from Starbucks.

- **For patients and visitors unable to walk** — Please park in the East Garage and use the shuttle service available on the first floor just outside the elevators from 6 A.M. to 2 P.M. Monday through Friday OR valet park and enter through the valet entrance (see map).

- **Coumadin Clinic Patients** — Beginning in mid-January, the Coumadin Clinic will be moved to Suite 103 on the first floor of the LDC Building. Patients visiting the Coumadin Clinic after this move are asked to park in the parking lot just East of the LDC building (see map).

- Please note, in January a portion of 21st street around Covenant Medical Center will be blocked off due to construction. While the street will be closed to through traffic, the East Garage may still be accessed on 21st Street and the Valet drive will remain open.

- We will do our best to keep you up to date on any changes that will affect your visit to Covenant Medical Center or the Covenant Heart & Vascular Institute, but we recommend you give yourself some extra time to make sure you arrive on time.

> Check our website at [keepingthecovenant.org](http://keepingthecovenant.org) for updates and information.

### Shuttle Service

A shuttle service from the East Parking Garage to the Valet drop off area will run from **6 A.M. to 2 P.M. every Monday through Friday**. This service is available for any patient or visitor needing assistance in getting to or from the garage. Visitors may access the shuttle on the first floor of the garage just outside the elevators and in the valet drop off area.

### For more information

If you require assistance or need general information about how to get around during the Keeping the Covenant construction project please call:

**(806) 725-0000**

Patients of Cardiology Associates requiring additional assistance may call **(806) 725-1801**
